- **VMI and CMI compatible with Summit Snapstock™**
- **Configured to your specifications**
- **All-steel construction, made in the USA**

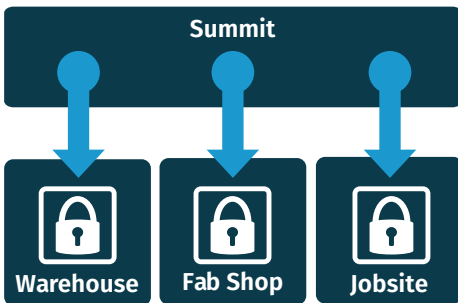

Contact us today to learn more about how Summit Lockbox® can solve your onsite inventory management challenges.

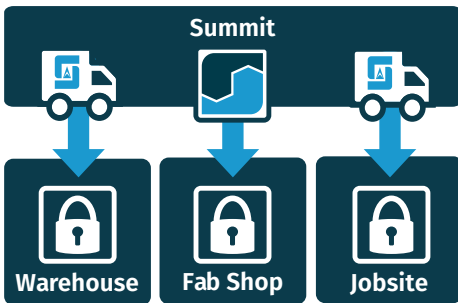

Next Level Inventory Control

1 We pre-load your Summit Lockbox® with product based on your project specifications. Product is clearly labeled and bar-coded for easy identification and inventory control.

2 Your pre-loaded Summit Lockbox® is delivered directly to your designated remote warehouse, jobsite, work area or fab shop. You can access material, track usage and stock levels with the Summit Snapstock™ inventory management app.

3 Your Summit Lockbox® will be replenished by Summit, ensuring that you never run out of material onsite. We can set up a replenishment schedule or use Summit Snapstock™ for easy-to-use VMI or CMI management.

Summit Snapstock™ is the cloud-based solution to your inventory management challenges. Manage inventory, warehouses, tool allocation, orders, shipping and more.

Summit Snapstock™ works seamlessly with Summit Lockbox to help you eliminate errors, reduce costs and boost employee efficiency.

Contact us today to find out how a customized Summit Snapstock™ solution can streamline your inventory control.

Heavy-Duty Flexibility

Summit Lockbox® can be configured for wire reel storage, small parts storage or a combination of both. The sturdy adjustable shelving and spool posts can be arranged in a variety of setups to best suit your needs.

These all-steel carts are carefully designed and built with construction materials and packaging in mind, ensuring maximum storage space.

The flexibility of Summit Lockbox® makes it simple to create your ideal onsite storage solution.

Easy-access wire ports for smooth pulls and organization.

Smart padlock can manage secure access with mobile app

Fork lift sleeves for safe and stable transport

Heavy-duty casters stand up in any environment

Wire spool posts are adjustable for many reel configurations.

Bar code labels for easy identification and inventory control

Adjustable shelves are heavy-duty and easily moved.

Heavy-gauge steel ensures longevity, security, and durability
