

SUMMIT ON SITE®

Customized, Predictable, Convenient

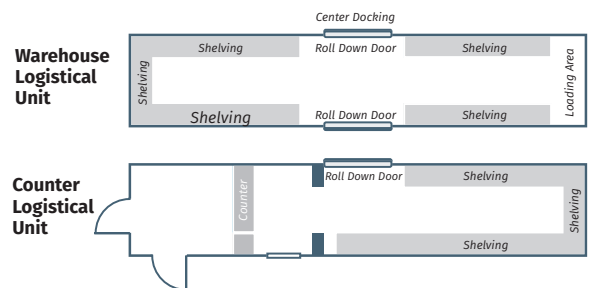

Practical inventory management without another thing to manage

Summit OnSite® gives you customized solutions to on-site inventory management. From sizing and configuration to scheduling and staffing, your Summit OnSite® solution is uniquely yours.

Customize your solution with:

- **Multiple sizes and configurations** – whether you need a job site trailer or a full conex, Summit has the on-site storage solutions to meet your needs.
- **Individualized replenishment schedule** – have the material you need when you need it. As you use your inventory, Summit will replenish your stock based on your schedule.
- **Seamless Integration with Summit SnapStock®** – When paired with Summit SnapStock®, you can see all your real-time inventory, at all your locations – all at once.
- **On-site personnel** – Summit can provide job site staff to manage your inventory and material distribution.
- **Simplified close outs** – When your project is over, the return process is simple. Give Summit a call and we'll start the return process.
